ABOUT THE SEMINAR

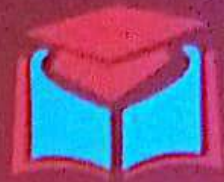

The primary objective of this seminar is to sensitize and stimulate the young minds to bring out the best ideas for New Education Policy. The deliberations of the seminar would contain the cocktail of all streams.

The main theme of this seminar is to develop a framework for creating the roadmap for NEP 2020. The world is becoming rich in knowledge with unbelievable advancements in science and technology, while there is also a great demand for skilled workforce for better socio-economic development. Keeping in view the fact that education always leads to economic and social progress, the goals of this seminar are :

- To focus the features of the new National Education Policy 2020 and compare this with the existing policy of India.
- To discuss the merits of NEP 2020.
- To motivate the innovations in NEP 2020.
- To predict the implication of NEP 2020 on the Indian higher education system.
- To find the conclusion and suggestion for further improvement for the effective implementation of NEP 2020.

It is heartening to note that Department of Mathematics, Vaish College, Bhiwani is organizing a National Seminar on 9th October, 2021 on the theme of National Education Policy and Socio Economic Development. Education is considered as an instrument for socio-economic transformation of any nation. The purpose of education is to liberate individuals from ignorance, prejudices and the barriers of caste, creed & language and ultimately enhance the capacity of the students to play meaningful role in nation building. National Education Policy - 2020 aims to meet the need of Bharat of 21st Century and empower the youth of the country to be capable and self-confident. I am very sure that deliberations made during the seminar will touch upon important aspects of NEP-2020 including its implementation in the colleges. I congratulate the principal, organising committee, staff and students of Vaish College, Bhiwani for this seminar. I extend my best wishes for the success of the seminar.

We are thankful to one and all for giving an overwhelming response to this seminar. The presence to young and budding researchers have indeed made this event a promising one. This seminar will provide a great opportunity to everyone to interact with and listen to the expert talks.

As education is the basis of gaining full human potential, rising up the society and contributing national development, providing universal access to quality education leads to economic growth, social justice and equality, national intergation, scientific development, India traditions and cultural and for the regaining the position of 'Vishv Guru'. Indeed, with the sharp changing employment and global ecosystem, it is becoming more important that the children not only learn but learn how to learn.

This seminar could not have been possible without gracious helping hand of mangement. We also extend our thanks to the present Principal and whole teaching and non-teaching staff for their kind co-operation and guidance without which the seminar would not have taken its present shape.

Once again, the thanks are due to all the speakers, delegates and participants who have come to this event by undertaking long journeys. We hope you will forgive the short coming on the part of orgainzers, if any and benefit yourself from healthy academic interaction during the seminar.

NEW EDUCATION POLICY – 2020 :

A TOOL TO BRIDGE THE GAP BETWEEN ACADEMIA AND INDUSTRY

The National Education Policy, 2020 is meant to provide an overarching vision and comprehensive framework for both school and higher education across the country. Till now, it is only a policy, not a law; implementation of its proposals depends on further regulations by both states and the center as education is a concurrent subject. But if implemented effectively, the policy can help reshape the future of the workforce and help the emerging job seekers become more job-ready. Among the multiple elements of the policy, some are directly linked to employability. There is no doubt that with a better education system the chances of employment become better. Various surveys have suggested that most of the passing graduates don't feel ready for their first job and they always remain in the dilemma of staying or leaving the job. Freshers are not fully prepared for their working life and lack of proper education is one of the main reasons. Industry-Academia gap is probably the most discussed thing by employers and job seekers. With the new policy coming in picture, the school and college education will not only be seen as a facilitator of degree but it will be treated as a medium to build personality and it'll help the students in their holistic professional growth. In recent times the need for behavioral competencies like resilience, agility, innovation and adaptability in the workforce has increased. From hiring to performance reviews, these skills are always prioritized. The traditional education system lacked the focus on building such competencies but the new policy has increased the scope of learning beyond subject-matters and made learning these skills essential. Additionally, these essential skills also include vocational exposure and skills; digital literacy, coding, and computational thinking.

New Education Policy and Higher Education: An Assessment

Dr. Rajiv Kumar, Assistant Professor of English, CRA College, Sonapat

The Union Cabinet of India approved the new National Education Policy 2020 (NEP) on July 29, 2020. The policy has been designed with a vision that it will touch the lives of every citizen of the country. The policy is a comprehensive framework for elementary education to higher education and vocational training in rural and urban India. The policy aims to transform India's education system by 2040. The NEP envisions a complete overhaul and re-energizing of the higher education system to overcome challenges that the higher education system faces today. The main thrust of NEP 2020 regarding higher education is to end the fragmentation of higher education by transforming higher education institutions into large multidisciplinary universities, colleges and HEI clusters or knowledge hubs, each of which will aim to have 3000 or more students. In addition, all multidisciplinary universities and colleges will seek to establish education departments besides carrying out cutting-edge research in various aspects of education. The policy also envisions the establishment of the National Research Foundation (NRF). The NRF will provide a reliable base of merit-based but equitable peer-reviewed research funding, helping develop a culture of research in the country through appropriate incentives. This paper, thus, is an attempt to understand the vision of the New Education Policy 2020 towards Higher Education.

INDIA'S NEW EDUCATION POLICY 2020: A CRITICAL APPROACH

Dr. Sanjay Goyal, Associate Professor, Vaish College, Bhiwani

As we aware that new education policy 2020 leads to increase the quality of teachers as well as students. Its primary goal to achieve the global knowledge. There are so many factors that favors it to imposed on the old education system like schooling starts from age 3 in the Anganwadi or Kinder garden, the rigidity of science, arts and commerce had been removed in this policy, great change in the exam pattern. In addition to it, it is also proposed that 360-degree holistic progress card will be introduced to evaluate the students as well as to provide the track of success to the students. It is also proposed that National Curriculum Framework for teacher education 2021 will be formed and new degree qualifications for teachers will be introduced.

NEP 2020 AND UPLIFTMENT OF SOCIO-ECONOMIC DISADVANTAGED GROUPS

Raj Kumar, Assistant Professor of English GCG, Kairu (Bhiwani)

Education has been considered as a basic necessity of individuals, social groups, nations and human society. In the modern world, it viewed as a basic human right. The educational journey of our country has seen many ups and downs, and many genuine aspirations have remained unfulfilled even after seven decades of Independence.

Our country launched its last national education policy in 1986 and revised in 1992. During these 34 years, the world has witnessed unprecedented changes in every walk of life. Revolutionary changes in the world's political economy, triggered by technological developments, have made significant contribution to the demolishing of the barriers of gender, class, caste, culture, geographical distance, and so forth. A Rapid economic development after 1991, the year when India opened its economy for globalization, have triggered a high demand for knowledge and specialized skills. Recognizing the need to keep up with a rapidly changing world and knowledge landscape, a futuristic national education policy has been launched in our country on 29 July 2020. The chief purpose of the NEP is to reform the education system and bridge the gap between current learning outcomes and those desired.

Despite successive government policies framed for bridging gender and social category gaps in all levels education, large disparities still remain, particularly for socio-economically disadvantaged groups that have been historically underrepresented in education. The present paper aims at highlighting the different hinderances faced by SEDGs and the steps proposed to be taken in the NEP 2020 for the upliftment of SEDGs. The NEP focuses on facilitating access from early childhood to higher education, integrating over two crore out-of-school children, and efforts towards socio-economically disadvantaged groups.

AN INNOVATION: NATIONAL EDUCATION POLICY 2020

Neha Goel, Assistant Professor, Dept. of Mathematics, Aggarwal College Ballabgarh | Email: nehagoel1976@gmail.com

Education is not only a ladder of opportunity, but it is also an investment in our future. It is concerned with methods of teaching and learning in school and college level and can be thought of as the transmission of the values and accumulated knowledge of a society. With respect to this, the National Education Policy 2020 (NEP 2020) is an Innovation to our old education system. This policy has many initiatives to improve the quality and the broadness of the education system in India. It stresses on creating a national curriculum and pedagogical Framework, which is competency-based, inclusive, innovative and focused on comprehensive development of children. It promotes building a strong foundational skills right from early childhood. This paper talks about the major emphasis on New National Policy on extracurricular activities, teaching in mother tongue and progressive 360 degree development. With a comprehensive 360-degree progress card, improvement of assessment and tracking of student progress to achieve learning outcomes, etc. is also included. It also outlines the structuring framework and challenges for its implementation.

A NEW ERA: NATIONAL EDUCATION POLICY 2020

Poonam Gupta, Assistant Professor, Dept. of Mathematics, Aggarwal College Ballabgarh
Email: poonam14031985@gmail.com

Different countries adopt different education systems by considering the tradition and culture and adopt different stages during their lifecycle at school and college education level to make it effective. In India, apart from Covid-19, one of the important changes that took place was the development of National Education Policy 2020. This policy has many initiatives to improve the quality and the broadness of the education system in India. It stresses on creating a national curriculum and pedagogical Framework, which is competency-based, inclusive, innovative and focused on comprehensive development of children. It promotes building a strong foundational skills right from early childhood. The year 2020 has been an exceptional year for countries across the world. This paper talks about the silent features of NEP2020 and analyses how they affect the existing education system. It also outlines the structuring framework and challenges for its implementation.

INVITATION

It gives me immense pleasure to inform you good self that Internal Quality Assurance Cell & National Service Scheme Unit -I of Vaish College Bhiwani is going to organise a Directorate Higher Education, Haryana Sponsored one day Multidisciplinary National Seminar on the topic "Powerful Weapon to Prevent Cyber Crime: Public Awareness" on 05.03.2023 at college campus.

ABOUT THE CITY

BHIWANI is a historic city, founded in the year 1433 in the name of a lady "Bhani". The city is also known as "the MINI VARANASI" (CHHOTI KASHI) of Haryana. The city is situated in the southern part of the Haryana state and is known as one of the oldest cities in the state. It is in the South about 125 kms. from Delhi; in the West 280 kms. from Jaipur and in the North 288 kms. from Chandigarh. It is well connected by rail and road. Bhiwani, is a district headquarters. As per the 2010 census, the district is home to over 1.6 million people with 864616 males and 764493 females and it covers an area of 5099 sq. kms. The weather in general is very pleasant.

BHIWANI has always valued education and has a long history of visiting scholars from various walks of life. The city and its adjoining area have more than 50 academic institutions imparting education in social sciences, physical sciences, life sciences, applied sciences and technical sciences up to the PG level. It has one Technological Institute of Textile and Sciences of international repute that has attracted students in huge numbers from abroad and all over India. At present, the city is growing as a hub of modern education, industries, trades and health services. It has produced many prominent personalities in the fields of politics, administration, defence, police, banking, insurance, medical services and sports. Like other cities of the world, Bhiwani has also become a 'netcity' progressing towards a multicultural

cosmopolitan city, where the best of traditional and modern worlds can be seen. The city is a safe, pollution-free and peaceful place. It can boast of its Kirori Mal temple, Khakhi Baba temple, Baba Hari-Har temple, Star temple and Devsar Dham in its vicinity.

ABOUT THE COLLEGE

Vaish College Bhiwani is one of the oldest and premier institutions of Haryana and it is situated in the heart of the city. The college was founded in the year 1944 by the munificent and visionary philanthropists, of that time for the educational upliftment of society. This college is a multifaceted co-educational institution, affiliated to Ch. Bansi Lal University, Bhiwani. It offers diverse courses in arts, science and commerce at UG level, along with certain UG and PG professional courses such as BBA, BCA, M.A. (Hindi, History), M.Sc. (Maths, Chemistry, Physics), M.Sc. (Comp. Sci.), M.Com. etc. It has excellent infrastructural and instructional facilities. Experienced and well-qualified faculty imparts quality and meaningful education to the students by blending the modern technological tools of the 'Western world' with the rich traditional values and cultural ethos. The academic staff of the college has significant knowledge about paradigm-shift in the educational system. Hence, they strive to develop in students the knowledge, confidence and requisite skills for various specific jobs. Over the years the college has flourished with glorious traditions achieving excellence in education.

The college boasts a wonderful overall environment that fosters inter-cultural understanding and promotes respect and tolerance among students. The college has remarkable achievements in academics, research, sports, cultural and extra curricular activities. In the field of sports the college has shown domination at the national and international, university and inter-university levels. Future plans for the institution include the development of additional excellent

infrastructural facilities, with new and renovated library laboratories, buildings, inclusion of new job-oriented courses, tapping the outstanding teaching expertise and techniques parallel to the foreign institutions. The college is well on its way to beoming one of the frontline colleges of India.

ABOUT THE SEMINAR

Crime is a term that is used to refer to the commission of a wrongful act or criminal incident. When it comes to cybercrime, can be defined as a crime committed by the Internet. Cybercrime, cybercriminals Cybercrime is a criminal act that is committed by using computer equipment or any other smart devices through the Internet. Hackers or criminals have different motives to commit this crime. They can do this to harm an individual, an organization or even the government. Cybercrime is a criminal activity in which fraud is done through a computer, network device or network. Cybercriminals take away from privacy to money through this. The purpose of the seminar is to stop all the crimes like data hacking, phishing mail, OTP fraud and mobile fraud, and extortion, which cyber criminals commit, in cybercrime by running public awareness campaigns. The continuous increase has to be stopped. Many times people unknowingly commit a cyber crime or become a victim of it. Awareness is the biggest weapon to prevent cybercrime. In the seminar, various measures to prevent cybercrime will be discussed in detail. Ex: We all should be careful in the use of mobile. Do not share any of your personal information like Aadhar card, PAN card, bank passbook etc. in the use of social sites. The tradition of updating status on social sites is very wrong. Try to avoid it. Many times over the phone, information is given by thugs to win offers and big money, in which people often share their personal information by getting caught in greed. Due to this, the thugs clean their hands on the money deposited in your accounts. It is impossible to get this money back. Women's helpline 1090 is being run by

the government for the safety of the girl child. You can register any complaint by calling on this. In this, the identity is kept secret. Thugs can be avoided only by the awareness of all the people. OTP or necessary document information is never asked for by the bank. So do not trust any call. If there is any problem then contact the bank branch directly for the same.

Different types of cyber security will be highlighted in the seminar.

Network Security – Protects the network from being attacked by malware and therefore always use a secure network.

Cloud Security – Cloud resources provide tools to protect data.

Information Security – Helps to protect data from unauthorized or illegal access.

End-user security – The user should be alert while inserting any external device into the system, and opening any mail or link.

Application Security – Helps to keep the system and software free from any threats.

Conclusion

Cybercrime is spreading its feet day by day. The best way to stay safe from falling prey to its ill effects is to follow safety measures. There are many ways by which we can protect our confidential information from leaking. However, we should always focus on awareness, because 'prevention is better than cure, especially when treatment is not available.

Be yourself and be smart and proactive to protect your identity and important information from theft.

With the knowledge of vigilance and technical resources, we can contribute to the prevention of cybercrime. The cyber awareness campaign is a commendable step taken by the government in the direction of stopping cybercrime. Make it a success by taking a pledge to prevent it.

ABOUT THE SEMINAR

**"The only Dream of the people
Make the Country
Clean-Healthy-Literate-Self-Reliant"**

Human is the most beautiful creation of God. The attainment of ultimate happiness in human life is possible only when we discharge human dharma by being aware and conscious of the invaluable capital of cleanliness-health-literacy and self-reliance. Mahatma Gandhi called 'Cleanliness'. It is considered more important than freedom. Gandhi Ji had envisaged three dimensions of cleanliness: - Clean mind, a clean body and a clean environment. He considered cleanliness as worship. This seminar will throw light on the depth of Gandhi's vision. The purpose of the seminar is also to make us all aware of the fact that making the polluted attitude and the polluted environment clean is the first quality of excellence and culture. An attempt will also be made in the seminar to throw light on the fact that there is a relationship between external cleanliness and internal cleanliness. From health. The day of April 7 is celebrated as World Health Day. Its purpose is to create awareness about health among people. Due to the industrial revolution, there is a continuous change in lifestyle. Present full of material comforts. Because of lifestyle, humans come A is becoming prone to diseases. For a healthy life, we have to make changes in our lifestyle. The purpose of the seminar is to illustrate the importance of a nutritious diet and exercise. With a nutritious diet and exercise, we become physically, mentally and socially strong - Will be healthy

The role of literacy is very important in realizing the dream of cleanliness and health. Awareness of the people is the main means of eradicating illiteracy. 8 September is celebrated as World Literacy Day. Even today, most countries are far from the target of achieving complete literacy. There are still 771 million people illiterate in the world. About 84 per cent of the world's population is literate. - To motivate the people to literacy. Literacy enriches human life and provides opportunities for humans to develop such skills, which help in making them self-reliant. He can become self-reliant with his skills. The step towards self-reliance from skill development will be exemplary for the world. Every person should become so capable, enlightened and skilled that he can contribute to his development as well as international development.

5 May is celebrated as World Sanitation Day, 7 April as World Health Day, 8 September as World Literacy Day and 21 August as World Entrepreneurship Day. How successful are these days on the real ground? The purpose of the symposium is to throw light on the interrelationship by evaluating cleanliness, health, literacy and self-reliance on the international stage. To take strong-meaningful steps towards human development by the best solution of the current challenges through reflection and deliberation on the international stage. The main goal of the seminar is. Through the seminar, guidance will be given to deal with the current challenges in realizing the concept of a 'clean, healthy, literate and self-reliant human. Must be eternal.

The summary is that

"Cleanliness is Health.

Literacy is the stepping stone to Cleanliness and Health.

Self-Reliance comes from the Triveni of Cleanliness, Health and Literacy.

With the fulfilment of the resolution of the four goals, the creation is heaven."

SUB THEMES
